IN MEMORY OF CARL CARSON.

College Station, June 9, 1913.

Editor Eagle:

Death has again visited our settlement; one of our number has gone to his last reward and we feel sure his name was written in the Lamb's Book of Life. Carl Carson dropped dead while attending a place of amusement at Houston Saturday night, June 7. He was 23 years old, born and reared at Union Hill, a son of Mr. and Mrs. N. F. Carson. He leaves brothers and sisters and many friends to mourn his death. He was a strict member of the church and the last testimony I hear of him was that his "peace was made with God," and it came from the heart. He was among a crowd of young men in the rear of the church and the only one who testified to the love of God. He realized that the church stands for the highest element of life.

Services from the residence of his sister, Mrs. Robert Spiller, Monday afternoon at 1 p. m., interment following at Booneville Cemetery by the side of his dear, departed mother.

He was a good citizen and a member of the Woodmen of the World. God is the architect, but every man is the builder of his own character and the world grows better only so fast as good men and women compel it to. Carl builded in this world and now is occupying a place builded for those who are prepared to meet God.

LIVED ON RAW EGGS

Mr. Richard's Experience With Different Diets. Peaches and Buttermilk for Three Years.

Cecilton, Md.—Mr. George Richards, of this place, during the past 12 years, has probably tried more different diets than the average person would ever use in a lifetime.

What he has to say about his experiments, must therefore be highly interesting to anyone suffering from indigestion or stomach troubles of any kind.

He says: "For more than 12 years, I suffered with stomach troubles, and paid hundreds of dollars for doctor bills and medicines. I was also operated on for piles."

I lived on dried peaches and buttermilk for nearly three years. The only thing that would not give me pain was raw eggs. I was a physical wreck. I could not sleep, and was as near crazy as a man could well be.

I must say that after taking two 25-cent packages of Theodor's Black-Draught, it did me more good than all I ever spent for other medicines.

I have been working daily on the farm ever since, and I am as hard as iron. This purely vegetable remedy has been in successful use for more than 70 years. Try it. But be sure that it's "Theodor's."

Teeth of the Sperm Whale.

Instead of having plates of baleen the square nosed sperm whale carries a row of twenty to twenty-five heavy teeth on each side of the lower jaw. These fit into sockets in the roof of the mouth and assist in holding the giant squid and cuttlefish on which the enormous animal feeds. The squid seldom gets away from the warm currents; hence the sperm usually remains in the tropics.

Rattled.

Mammy Lou was visiting Lucindy. The latter lifted a boiling pot off the stove, set it in the fireless cooker, covered it closely and pushed it under the table.

"What's yuh a-goin' t' do wid dat pot?"

"It's a-goin' to cook dem beans in de fireless cooker."

Mammy rose, a scared, hunted look on her wrinkled face. "Does yuh mean t' tell me yuh a-goin' t' blee dem beans widout fish?"

Lucindy nodded. Mammy backed to the door and looked at the girl as at an apparition, then, with defiance mingled with fear, commanded: "Put on your bonnet! You sure is hoodooed! You ain't goin' t' live in no house where the devil does de cookin'!"—Judge.
